

Intermittent fasting

Period: 2024-09-01 to 2026-08-31 | Language editions: cs, uk | Entity: Q1666254

MEASURED FACTS

EDITION / ARTICLE	DATA COMPLETENESS	LATEST 3M YOY	NORMALIZED THEIL-SEN
CS Přerušovaný půst	22 complete / 2 incomplete months	Unavailable: missing or incomplete months	-0.0481 / month
Recent direction is inconclusive because latest-3m YoY is unavailable; long-range trend...			
MAD sensitivity: 32 flagged day(s); before/after robust trends have same sign.			
UK Інтервальне голодування	23 complete / 1 incomplete months	-37.0%	-0.0691 / month
Recent YoY and robust long-range trend are both negative.			
MAD sensitivity: 82 flagged day(s); before/after robust trends have same sign.			

RESTRAINED INTERPRETATION

CS: Recent direction is inconclusive because latest-3m YoY is unavailable; long-range trend is negative. UK: Recent YoY and robust long-range trend are both negative.

LIMITATIONS

Wikipedia pageviews are attention/information-seeking signals, not proof of market size, demand, willingness to pay, product-market fit (PMF), conversion, or commercial intent. Absolute cross-language traffic is not normalized market size.

Source warnings: Only the requested title is measured; aliases and title history are not merged. | Missing days are unknown, not zero vi...

NEXT VALIDATION

Validate this attention hypothesis with search demand, customer interviews, and product-specific behavioral signals.
